EHRETIA MICROPHYLLA BALL

The Ehretia microphylla is expertly shaped into lush, evergreen "cactus balls" that provide a sophisticated, architectural look. Its tiny, glossy leaves and delicate white flowers create a dense, living sculpture perfect for elegant tabletop decor or manicured garden accents. This hardy, compact sphere offers a polished aesthetic that stays vibrant and green year-round.

CLERODENDRUM INERME (WILD JASMINE)

The Clerodendrum inerme is the ultimate choice for a polished, durable hedge. Its dense, glossy green foliage thrives in coastal and sun-drenched areas, offering a lush privacy screen that remains vibrant year-round. Salt-tolerant and incredibly hardy, these manicured hedges provide a clean, architectural finish with minimal maintenance.

PACHIRA AQUATICA TWISTED

The Pachira aquatica, or Money Tree, features a stunning braided trunk that adds a modern, sculptural element to any interior. Its lush, five-lobed emerald leaves create a vibrant canopy, symbolizing luck and prosperity in any home or office. Thriving in indirect light with minimal watering, this "twisted" beauty is a resilient, low-maintenance choice for elegant indoor decoration.

FICUS BONSAI MULTIHEAD

The Ficus Multihead is a masterpiece of living decor, featuring multiple lush canopies of glossy green leaves atop a sturdy, architectural trunk. Its unique multi-tiered structure adds dramatic height and a high-end designer feel to any room or office corner. This hardy, air-purifying plant is exceptionally durable, making it a perfect low-maintenance statement piece for modern interiors.

CYCAS REVOLUTA

The Cycas revoluta is a timeless focal point known for its stiff, feathery fronds and rugged, textured trunk. This prehistoric beauty adds a touch of exotic elegance and a bold architectural silhouette to both modern interiors and sunny landscapes. Exceptionally hardy and slow-growing, it is a low-maintenance "living fossil" that brings a premium, tropical feel to any decoration project.
