CITRUS SINENSIS

The orange tree is a stunning evergreen prized for its fragrant white blossoms and the sweet, juicy fruit that serves as a vibrant highlight of the UAE harvest season. Its dense, rounded canopy of deep green leaves offers excellent year-round coverage, making it as much an ornamental asset as it is a productive fruit tree. Thriving in the local sun, this resilient citrus variety adds a touch of classic Mediterranean charm and refreshing aroma to any residential garden or green space.

PUNICA GRANATUM

The pomegranate is a hardy, drought-tolerant tree celebrated for its striking tubular red flowers and the jewel-like, antioxidant-rich fruit that thrives in the UAE's desert climate. Its slender branches and small, glossy leaves create a delicate, ornamental silhouette that transitions beautifully through the seasons while providing a bountiful summer harvest. Symbolizing prosperity and health, this ancient species is a perfect addition to local landscapes, offering both vibrant color and exceptional resilience.
